

To Whom it may concern,

I would like to voice my support for satellite radio and the valuable programming that it offers. I would also like to voice my opposition to Petition 04-160. Satellite radio offers valuable traffic information for my commute to work as well as a wide selection of entertainment. I deeply resent the NAB trying to limit what I can hear on satellite radio. Competition is what drives our economy, and the NAB and its members should compete for listeners and quit trying to use the government to limit their competition.
